Description

SMITH Scabs Horseshoe Knee Gaskets - Knee Support and Comfort

The Horseshoe pad is made of neoprene with additional impact absorbing knee padding. These knee gaskets specialize in provided support and comfort to people with weak or injured knees, and are not made to protect against hitting or scraping your knee. They are made of elastic neoprene material which wraps around all sides of the knee in order to provide maximum support. The knee gaskets provide support areas of the knees which other skate knee pads cannot provide. Also, they can be attached and worn under Smith Scab pads for additional extreme protection. Set of 2 Knee Gaskets available in SM, MED, LG, XL.

- Select sizes and Colours Available to Ship Today in the pull-down menu!

Sizing Guidelines: Measure the circumfrence 2" above your knee cap

SCABS KNEE GASKETS
